Injections

Botox®/Dysport®

These are botulinum type A proteins that cause relaxation of targeted muscles. Instantly softens facial wrinkles such as frown lines, forehead lines, eye lines, upper lip lines and chin dimpling.

Dermal Fillers

Fillers (Juvederm®, Voluma®, Restylane®, Perlane®) restore lost facial volume to create a more youthful contour, help lift sagging skin and soften facial wrinkles and creases in the skin.

Sculptra Aesthetic

First facial injectable that gradually replaces lost facial volume over time and helps rebuild your OWN collagen.

Facial/Hand Fat Transfer

Provides a natural alternative to face and hand volume loss that can last for years.

Venetian Thread Lift (VTL)

Dissolvable threads (PDO sutures) are placed into the skin to help tighten and lift the skin with minimal downtime. They are also very safe and effective for deep wrinkles such as frown lines, lip lines and smile lines.

Skin Rejuvenation Therapies

Laser Genesis®

1064 Nd Yag known as the “warm laser facial”, gently stimulates collagen to soften fine lines and wrinkles, improves facial redness, reduces pore size, and diminishes acne scars.

LimeLight® IPL

Light-based therapy known as “Intense-pulsed light” or IPL that effectively removes brown spots, sun damage, freckles and redness / rosacea with minimal downtime.

AcuTip®

Light-based therapy used to treat individual sunspots or “age spots” anywhere on the face or body. Also used to remove red spots called cherry hemangiomas.

Venus Freeze Skin Tightening & Cellulite Reduction

This revolutionary technology combines Radio Frequency (RF) and Magnetic Pulses to stimulate collagen and elastin production in the skin. This leads to skin tightening, wrinkle reduction and improvement in cellulite.

Pearl Fractional® Laser

Intense laser treatment for moderate to severe facial wrinkles and sun damage. Dramatic results are seen after a single treatment with about 1 week of recovery time. Ideal for acne scarring as well.

Infini™

3-Dimensional technology that uses microneedles to deliver radiofrequency energy directly into the dermis to dramatically reduce wrinkles and tighten the skin of the face, neck or chest.

Spectra™

Dual Mode Q-switched laser that targets melasma, vascular lesions, sun damage, large pores, acne, acne scars and fine lines and wrinkles. Unique to this laser is the Spectra Carbon Peel, a non-ablative exfoliant procedure that will leave your skin glowing.

Tattoo Removal

Tattoo ink is removed by using specific wavelengths of light to break up the the different colored pigments.

Laser Hair Reduction

Safely and effectively remove unwanted hair anywhere on the body.

Laser Vein Removal & Sclerotherapy

Permanently remove facial and leg spider veins with no downtime.

Teeth Whitening

Professional grade peroxide gel with LED light for activation.

Body Sculpting / Fat Reduction

CoolSculpting®

Non-invasive, clinically proven procedure to selectively eliminate unwanted fat cells by patented cooling technology. Very effective for removing fat in the abdomen, hips (love handles), back and under chin.

Water and Laser-Assisted Liposuction

Transform your shape with the natural flow of water! A gentle way for fat reduction that changes your shape in a matter of hours with minimal downtime and discomfort!

Medical-Grade Facials & Chemical Peels

Each facial and chemical peel is individualized to address the patient’s own skin conditions.

Medical-Grade Microdermabrasion

Our microdermabrasion system is unique in that it uses sodium bicarbonate micro-crystals, which cause less trauma and inflammation to the skin. This unique skin exfoliation and rejuvenation system is gentle enough for all skin types and also enables treatment of the eyelids and lips.

Medical-Grade Micro-Needling

InnoPen MD is a professional, automated microneedling device that is used to improve elasticity of the skin and reduce fine lines, wrinkles and acne scarring. We offer the MTS Home Roller for the ultimate in home-based anti-aging treatments.
